

EXPERIMENTS

Nautilus
Macromphalus

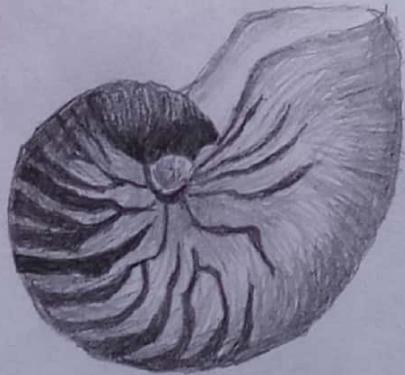

Experimenting different techniques
for drawing the seashell on the cup:

Draw the same nautilus using
different techniques.

Acrylic Paint

- Color stands out more.
- Visible details.
- Color got too messy.

Black Pencil Drawing.

- Easier and faster.
- Some parts are darker than other parts.

Ballpoint Pen Drawing

- Visually better than pencil.
- Value is harder to control.
- Harder to show details.

Color Pencils

- Colored.
- Many details overlap.
- Color is too messy.

Nautilus Macromphalus

Acrylic Paint
- Color stands
- Visible detail
- Color good -

Black Pencil Drawing.

- Easier and faster.
erfisibk
- Some parts are darker
than other part.

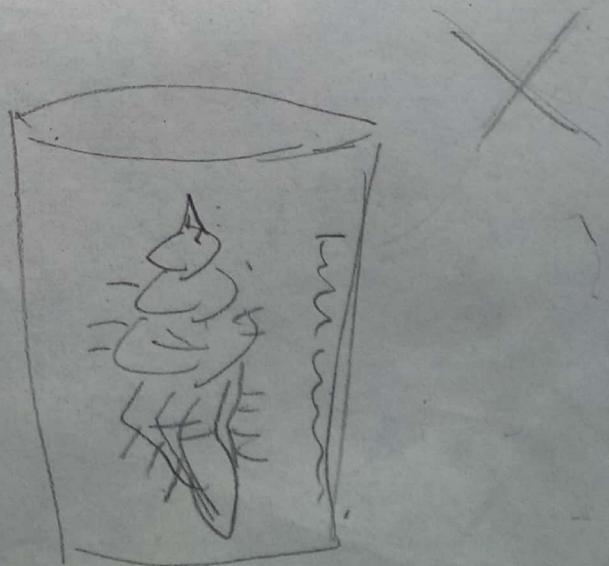

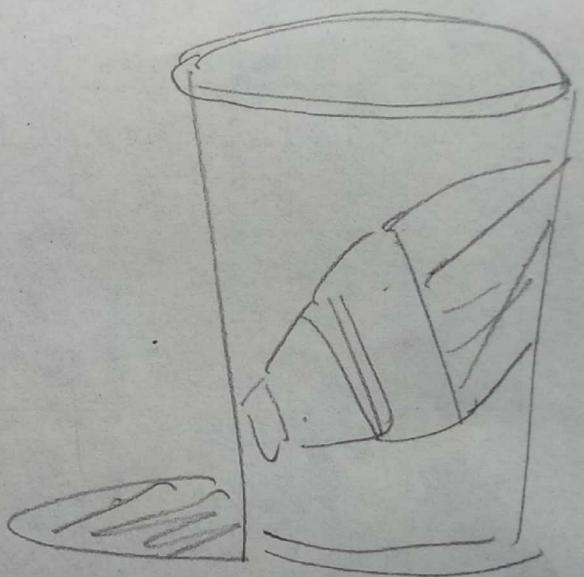

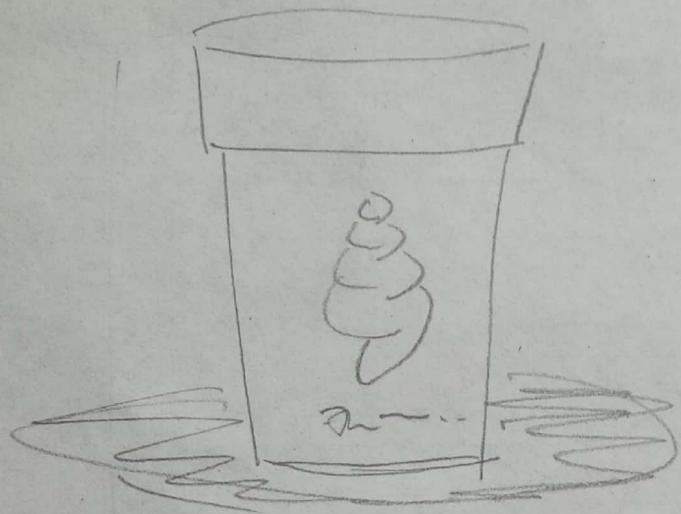

Ballpoint Pen Drawing

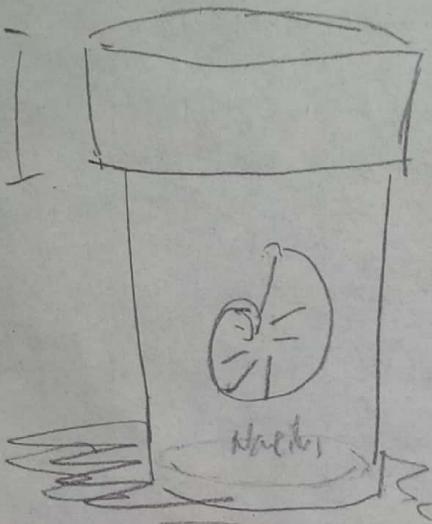

- Visually better than pencil.
- Value is harder to control,
- Harder to show details.

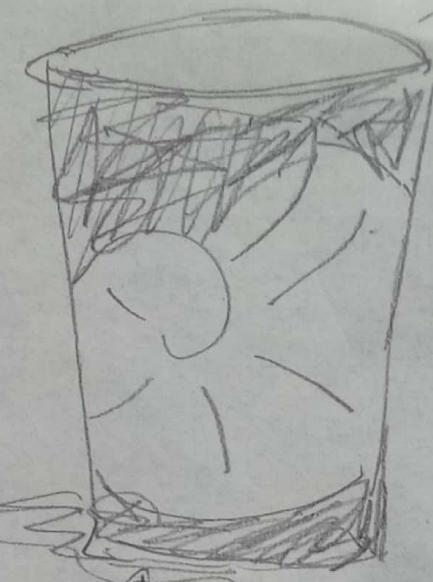

Color Pencils

- Colored .
- Many details are lost
- Color is too messy.

Wafer

↑ light background.

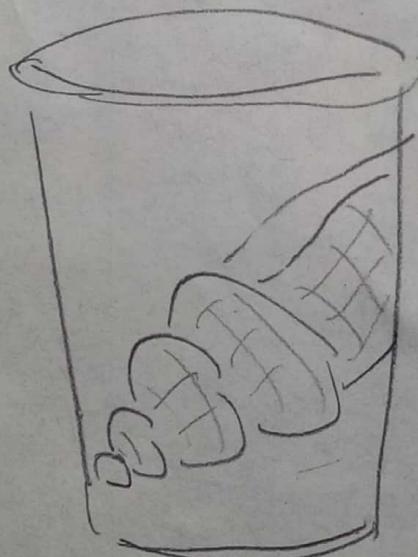

- ring

Short cup

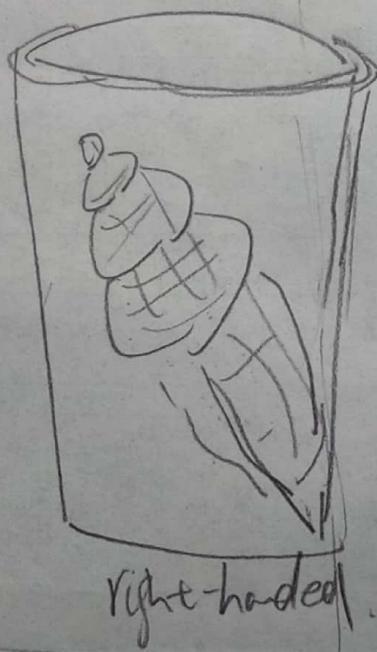

- Wake it like paper cup
- overshell in the center
- (both have below)
- Introducer behind.

Large cup

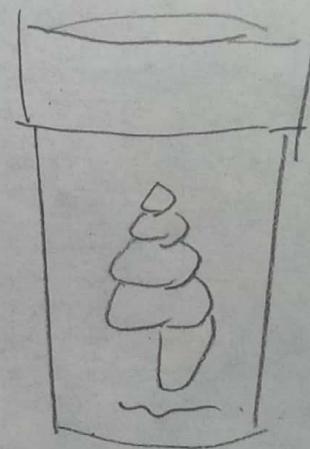

- plastic cup liked.
- Large printed (slashed).
- Dark background??

left-handed

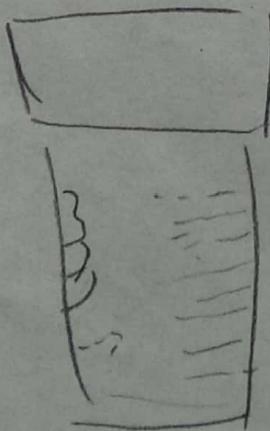

right-handed

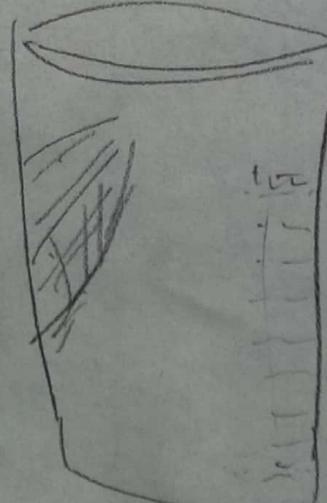

I think it's better.

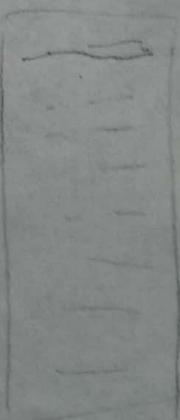

↑
My mom says
this is better.
